

GREAT BOND ISSUE PROPOSED BY TAFT

He Will Ask Congress
for \$10,000,000 for Con-
servation Work.

PLEDGE TO FOLLOW ROOSEVELT POLICY

President Makes His Long-Ex-
pected Speech on the Saving
of Natural Resources—Up-
holds Thirty Projects
Which Are Already
Under Way.

SPOKANE, WASH., September 28.—
Congress will be asked by Presi-
dent Taft to authorize the issue
of \$10,000,000 in bonds to com-
plete irrigation projects already be-
gun in the West, and on which work
has been stopped for lack of funds.

This was the announcement made
by the President in his speech deliv-
ered here to-day on the conservation
of natural resources. Enthusiastic
cheering greeted the declaration. The
President declared that many new
projects had been discovered and
that he intended to place them
at the disposal of his administration
on the general conservation of natural
resources.

"The truth is," he said, "my adminis-
tration is pledged to follow out the
policy of Mr. Roosevelt in this re-
gard, and while the pledge does not
involve me in any obligation to carry
them out unless I have congressional
authority to do so, it does require that
I take every step to exert every legiti-
mate influence upon Congress to enact
the legislation which shall best sub-
serve the purposes intended."

Bullinger in Accord.

The President declared that Secretary
of the Interior Bullinger was in ac-
cord with him as to the necessity for
promoting in every legitimate way the
conservation of natural resources.

The President praised the efforts of
Pinchot for his "wonderful work
for the conservation of the forests,
supported by Mr. Roosevelt."

President Taft declared as to wa-
ter-power sites that Congress must
authorize the government to allot
these sites to private interests for de-
velopment, the government retaining
general supervision.

He declared also that he would urge
upon Congress the necessity of an
authoritative classification of public
lands to prevent difficulties of the
past, such as the setting aside of
coal and mineral lands as agricultural
lands, and vice versa.

Mr. Taft said, in part:

"I am going to take up to-day the
subject of conservation of our natural
resources. This has been given a very
wide scope. I don't propose to cover
the whole ground to-day. I shall con-
fine my attention to those parts of the
policy which are certainly within the
jurisdiction of the national govern-
ment, especially concerning the coun-
try west of the Missouri River. I re-
fer first to the preservation of the
national forests; second, to the reclama-
tion of the arid and semi-arid lands
by irrigation; third, to the disposition
of water-power sites upon public lands
with proper restrictions, both in re-
spect to the compensation, its extent
in point of time, and the amount of
rates to be charged to the public
by the beneficiary of the grants; fourth,
to the disposition of coal, oil
and phosphate lands owned by the
government, with such restrictions as
will permit their development for pri-
vate profit, and yet will prevent mon-
opoly and extortion in the sale of the
product."

Protection from Fire.

"It appears that the government
timber land is only about one-fourth
the timber land owned by private in-
dividuals, and only 3 per cent. of the
timber land owned by private individuals
is properly looked after, according to
modern methods of forestry. The
damage by fire of forests is estimated
to be \$50,000,000 a year. It would
seem, therefore, imperative that the
States require some system of fire pro-
tection and the adoption of the best
methods of forestry."

"It would seem that the States have
a right to do this because of the gen-
eral interest which the public has in
the preservation of the forests and in
its equalizing of the water supply and
in effect upon the climate. The regu-
lation of the water supply and the
prevention of erosion of the soil and the
wasteful destruction of the best part
of the soil, which is carried down the
rivers with the floods."

"I won't stop to discuss at length the
forestry question. The wonderful pro-
gress made by Mr. Pinchot, with the
earnest support of Mr. Roosevelt and
Secretary Wilson, at times has met the
denunciation of persons in the Western
country on the ground that property
was being taken which Congress in-
tended for individuals, and was being
withheld from them."

"But I think general opposition to
Mr. Pinchot's plans has disappeared,
and that the great body of the Ameri-
can people recognize the benefit of the
reform in reference to forestry and
greatly regret that it was not begun
years before."

"The plan of the government to re-
claim the arid and semi-arid lands,
manifested in the reclamation act, has
been carried out most rapidly by the
bureau charged with its execution."

"There are some thirty projects
which have been entered upon by the
reclamation bureau, and which I think
of them are to be commended for
their excellent adaptation to the pur-
pose for which they were erected, and
for the speed with which the work has
been done."

For Issue of Bonds.

"I think it wise to apply to Con-
gress for relief by urging the passage
of an enabling act which shall permit
the Secretary of the Interior to issue
bonds in the sum of \$10,000,000 or
more to complete all the projects."

"There are some thirty projects
which have been entered upon by the
reclamation bureau, and which I think
of them are to be commended for
their excellent adaptation to the pur-
pose for which they were erected, and
for the speed with which the work has
been done."

tra stopovers. Office 320 East Main
Street.

NEW COTTON STANDARDS

They Are Now Locked Up in Vault of
Suffolk Department.

[Special to The Times-Dispatch.]
WASHINGTON, D. C., September 28.—
Reporting in the vaults of a safe de-
posit company here are nine black
mahogany boxes, which it is expected
will play a decidedly important part
in the cotton standardization action
in the United States, amounting to
about \$600,000,000. The boxes contain
the standard cotton samples ap-
proved by the Secretary of Agriculture,
and which were decided on by a com-
mittee of a score of cotton men as sum-
marizing all grades of commercial cot-
ton. Access to these standards can be
had only by a committee designated by
the Secretary of Agriculture.

Within a short time, perhaps within
a day or two, the Department of Agri-
culture will have replicas of these
nine standards and will place them in
the hands of a limited number of as-
sociations, organizations, exchanges
and agricultural colleges for inspection.

Take Place of Thirty.
The sets will enable the cotton pro-
ducers, cotton merchants and spinners
to become familiar with them by Sep-
tember 1, 1910, when it is contemplated
to have them shown at the annual con-
nection with the buying and selling
of cotton. It is said that they will
take the place of about thirty
varying standards now in use.

The new standards are expected to
do away with the endless controver-
sies between buyers and sellers in dif-
ferent parts of the country, each of
whom expects deliveries to be made
upon the basis of the standard which
prevails in his particular part of the
country.

Congress authorized the Secretary
of Agriculture to establish a stand-
ard for the different grades of cotton,
calling for his assistance for that pur-
pose expert cotton classifiers. Carry-
ing out the provisions of this act,
Secretary Wilson convened here, about
six months ago, a committee of cotton
experts, besides the department
experts, representatives of the
different interests of the trade, num-
bering about 200 in all. New York,
New Orleans, Atlanta and other cotton
centres of the South.

In view of the fact that contracts
are made for the cotton season, the
committee recommended that the grades
agreed upon by the committee be not pro-
moted in the future in the transac-
tions prior to September 1, 1910.

DISARMING PEASANTS

Spanish Authorities Taking No Chances

With Peasants in Catalonia.

CERBERE, FRANCE, September 28.—
The strict censorship over news dis-
patches continues to be enforced
throughout the province of Catalonia,
Spain.

According to news that reaches here
from military searching parties, the ac-
counting of Catalonia during the past
few days has been a record of blood-
shed. It is understood that the authorities,
in order to allow the popular life to
cool down, have ordered the courts to
try by court-martial until the end
of November. They will not, however,
make any concessions in the matter
of the trial of the peasants, which
anarchistic doctrines are taught.

Infernal Machine Used.

MADRID, September 28.—Several
people were wounded in Barcelona yester-
day by the explosion of an infernal
machine.

The mayor forbade the transmission
of this news, and the minister of the
interior declares that such outrages
justify the continuing suspension of the
constitutional guarantees.

Spain Celebrates.

MADRID, September 28.—The cap-
ture of the towns of Nador and Zelu-
an by the Spanish forces in Morocco
is being celebrated here as the virtual
end of the Moroccan war. The news-
papers received here from Melilla say
that all the villages in the foothills of
Mount Guruga, which has been the
Moorish stronghold, are in flames.

Another Sharp Brush.

MELILLA, September 28.—A detach-
ment of Spanish troops in the Rif re-
gion had a sharp brush with the Moors
to-day. A Spanish major and several
soldiers were killed, and the Moors
lost about 100 men. The Moors will
follow up their recent victories at Nador
and Zelu. They are now engaged in
driving the enemy, which have dwelt
about the edge of Mount Guruga.

BRYAN VS. BAILEY

The Two Will Thrash Out Their
Differences in Joint Debate at Atlanta.

ATLANTA, GA., September 28.—A
joint debate between William J. Bryan
and Senator Joseph W. Bailey, of Texas,
at Atlanta will probably be held some time
next month in the Atlanta auditorium.

Senator Bailey to-day wired his ac-
ceptance of the formal invitation ex-
tended by the Young Men's Democratic
League of this city to Mr. Bryan. While
not replying to the invitation has been re-
ceived from Mr. Bryan, advice from
Senator Bailey is to-day being given
that Mr. Bailey wired Mr. Bryan of
his acceptance of the invitation, in-
corporating in his message to the for-
mer the following words: "I accept
your request that he, too, accept and
fix the date of the meeting. Mr. Bryan
will reach Lincoln, Neb., to-morrow."

The Democratic convention of Texas
opposed the plank in the national
Democratic platform favoring free raw
material, and Senator Bailey attacked
the feature of the platform on the
floor of the Senate. Mr. Bryan
went to Texas about two weeks ago,
and in a number of speeches assailed
the plank. He said that the plank
was a "damnable lie" and that the
latter defending his position
from platforms in various parts of the
State.

SHERIFF DROPS HIS MAN

At First Shot His Opponent in Duel Is
Killed.

PITTSBURGH, PA., September 28.—
In a pistol duel at close range this
morning, Clinton Overstreet, a deputy
sheriff, shot and killed L. E. Bragg,
a planter on the latter's place, near
Woodville, this county. Bragg fired
first, but his aim was poor, and the
deputy sheriff dropped him. The two
men were standing but a few feet
apart and firing almost in each other's
faces. Bragg was a former Congress-
man Overstreet, of Georgia.

It was alleged that Bragg yesterday
assaulted a woman and was charged
with the assault. The courts had
taken charge of a portion of his crop.
It was said that at the point of a pistol
he drove the agent and Overstreet
Overstreet went to make the arrest.
The officer killed his man at the first
shot.

MAN HUNT IS ON

Hundreds Are Pursuing Men Who Com-
mitted Hurley Murders.

BLUEFIELD, W. VA., September 28.—
A report from Buchanan county, Va.,
to-day states that over 300 men are
engaged in a hunt for the men who
murdered George Meadows, his wife,
three children and his mother-in-law
last Wednesday. It is alleged that
Mrs. Meadows had \$2,000 hidden in her
home and all the children and the
robbers and murderers. The William
Ritter Lumber Company, one of the
largest in the mountains, has closed
down and every employee ordered to
assist in the hunt for the murderers.

BLAME TODD AND CENSURE PILCHER PASSES IN REVIEW

Surveyor Sharply Re-
buked by Committee on
Fairmount Grading.

NO EXCUSE FOR ERRONEOUS LINES

Damage Estimated at \$916.25 Af-
ter Careful Inspection, Report
Declares—Bolling Repeats
That His Assistants Were
Ordered to Give
Every Aid.

PLACING the blame for the error on
Fourth Assistant City Engineer
Charles L. Todd, Jr., and sharply
censuring Surveyor P. P. Pilcher for
his manner in testifying before the
committee, the report of the sub-
committee which has been inquiring into
the alleged wrong grading of streets
in Fairmount was submitted to the
Committee on Streets last night. Af-
ter a brief statement from City En-
gineer Bolling, the report was read
and filed without comment or debate.
Mr. Bolling merely stated that it had
been his intention to give the commit-
tee every aid, and that his instructions
to his assistants had been to give the
committee the best assistance in securing
the facts. Mr. Bolling said, after hear-
ing the report, that he wished to re-
peat his original statement that cer-
tain streets had been cut below the
grade because of the lowering of a
bench mark. He said that he was pre-
paring careful estimates of the excess
excavations, drawn by taking the dif-
ference between the true grades and
those given from the lowered bench
marks, and that he had been ordered to
emphasize what the report did not
state, that all streets excavated in
error had been restored to the true
grade. He added that although a
member of the investigating com-
mittee, he had not been present when the
report was drawn.

Findings of Committee.
The report, which is signed by Chair-
man Richards and Aldermen Gilman
and Powers, details the findings of
a subcommittee to investigate alleged
erroneous errors and
continue:

"Your subcommittee after having
carefully examined into every detail of
the grading in question, and after sev-
eral times over the ground, and hear-
ing statements from all parties
concerned, and after a careful exami-
nation of the testimony of the several wit-
nesses examined, respectfully make the
following report:

"First. We find that certain streets
in Fairmount were cut below the grade
authorized by the city council. Sec-
ond. We find that the following
streets were cut below the authorized
grades as follows: Twentieth Street,
